Polyester Melt Temperature: 489° F

Fiberglass Core Melt Temperature: 1500° F

Breaking Strength: 770 lbs.

Spool Length: 1500 LF

The Polyester is chemically stable and has excellent chemical resistance to solvents, oils, weak acids and alkalis.

DATA SHEET

This information is representative at the time of publication and should not be deemed to constitute or imply any warranty of performance. The user is responsible for determining the suitability of the material for the respective application. Since the condition of use is beyond our control, it is the responsibility of the customer to ensure through preliminary testing that the physical properties of the chosen product are suitable for the intended purpose. The product is intended for use by persons skilled in the art of fabricating removable insulation covers. As the value of the product is disproportionate to the value of the goods into which it is used, we are not responsible for consequential damage. This publication renders all previous copies invalid. Amity's sales policy is applicable at all times.
