

STAINLESS STEEL D-RING

D-Rings are ideally suited for removable / reusable insulation blankets. Typical applications include adjustable insulation straps, utility straps and much more.

CHARACTERISTICS

Amity stainless steel D-Rings are Type 304 stainless steel which is the most popular grade of stainless steel and is easy to use in everyday applications. The material has good corrosive resistance and is superior to other materials like galvanized steel.

SPECIFICATIONS

Item Number	WD16X10-10BWSS
Formal Product Name	1 x 5/8 D-Ring #7 Electric Weld Stainless
Testing Method	BSL 200Kg
Material	Stainless Steel Type 304
Finish	Raw Material
Width	24.42mm
Depth	19.56mm
Thickness	3.48mm
Weight	6.5g
